QUESTIONS FOR THE SPONSOR CLUB(S)

1. Why are you sponsoring this RCC?

- To carry out a short-term project (active for up to two years)
- To carry out a long-term project (active for up to five years)
- For ongoing community improvement (will exist indefinitely)
- Other: _____

2. Briefly describe any specific service activities that the RCC plans to undertake.

With a population of 2.5 million Antalya has been one of the most emigrated cities in Turkey. Habibler area located in the north part of Antalya is the base of emigration. It attracts many people from almost all parts of Turkey. The abnormal migration rate has been the cause of families struggling to survive, especially in Habibler neighborhood.

We have to care these people.

This area is constantly growing requirements on both social and educational aspects. They need schools. They need health care. They need to learn about birth control. They need jobs. They need orientation to adjust their new city life.

In a nutshell, all these people are moving here just to have a better life.

Here in this rural area, family structures are mostly men dominated and conservative. This means women do not have much power at home. We believe that the keystone of a family is women and especially "mothers".

For this reason, our main focus is mostly on women and children. We want women to gain self confidence without being dependent to their husbands. We want women to be literate. We want them be aware of birth control. We want them to learn some hand craft or cooking or sewing or similar skills and end up making at least their pocket money. And also we want to introduce their childrens with some social and cultural activities like music, movie and theatre ,,etc.

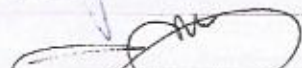

3. Briefly describe how you will provide ongoing guidance and support to RCC members.

We as Aspendos Rotary Club gave a hand last year and purchased 15 computers with the support from Rotary International, President K.R.Ravindran.

Today 15 trainees have being trained by 6 month accountancy courses. We also purchased a special sewing machine for women in order to be used during the sewing courses. We would like to do more. We have definitely decided to relate more. We must create a fund for their future activities, like supplying a teacher or providing technical equipment for the new or getting courses which are very demanding like sewings ,embroidery, cooking and asistant cooking, handicrafts ,,etc or getting up celebration days etc. This will also enrich Rotary Image in the community. We prefer being with them on the special days , like Turkish Republic Day, Mothers' Day, Children Festivals. Thus they feel that somebody is taking care of them.

We definetly belive that there are many more Rotary services what we can do that there. we should always be there with ourselves and our services.
